author's unique contribution is to meld philosophy with everyday decisionmaking offering the reader a common sense approach to making ethical decisions. Real life case examples illustrate ethical dilemmas that involve personnel practices, organizing strategies, reporting functions, supervisory practices, whistleblowing and more throughout the author emphasizes the kinds of concerns which confront the vast majority of employees from ambitious entry level personnel to top executives. Realistic in tone the discussion acknowledges the inevitable need to make compromises showing how to optimize ethical values situations that arise on the job and for which no formal rules exist. In her introductory chapter Guy defines ethics, clarifies the relationship between ethical behavior and morality and presents the ten guiding values that serve as the foundation for ethical decisions. Turning to a focus on decisionmaking she explores such issues as the theoretical framework for rational decisionmaking, rational decisionmaking in real life, the application of ethical analysis to decisionmaking and the definition of ethical decisionmaking. The four subsequent chapters present case studies of problems that personnel commonly encounter. In each case Guy examines the ethical issues involved, applies various scenarios for reaching an ethical decision and demonstrates the tension that exists among ethical decisionmaking, coping with daily exigencies and accommodating the preferences of stakeholders. The concluding chapter summarizes the relationship between ethics and decisionmaking and offers a prescription for ensuring ethical decisionmaking throughout the organization. Must reading for managers in business, government and not for profit organizations this book is also an excellent supplemental text for advanced undergraduate and graduate level courses in business and public administration.

This book assists readers in understanding the real life dilemmas law enforcement officers confront throughout their careers. The scenarios are riveting and the discussion points force readers to consider the myriad options officers face in these dilemmas. One thing is certain as made clear by the decision points in every chapter ethical decision making is an extraordinarily difficult endeavor in the law enforcement profession. Decision point focuses on the individual officer in the middle of each situation while making it clear that the broader culture and traditions of the agency play a major role in helping the officer make the right decision. This text therefore provides value to a wide audience including those in entry level through supervisory and management level training programs on many levels.
